Code Review & Best Practices

EDUCATION

B.Tech (Information Technology)

From SSIPMT,

Raipur, 2016 - 2020

PROFESSIONAL SUMMARY

Frontend Lead with 4.9 years of experience building scalable Angular applications (v5 to v19) using TypeScript and JavaScript. Proven in leading migrations, mentoring teams, and delivering clean, maintainable code. Open to roles as Senior UI Developer or UI Lead.

EMPLOYMENT HISTORY

LEAD, SOFTWARE ENGINEER | LENTRA | PUNE | SEP 2023 - PRESENT

Project - LOS Platform Development (Loan Origination System)

Client - Aditya Birla Finance Limited

- ❖ Leading frontend development and mentoring a team of 8+ developers on a high-scale Angular-based Loan Origination System.
- ❖ Spearheaded Angular upgrades (v14 → v16 → v19), driving modernization and ecosystem alignment.
- ❖ Delivered key admin modules that improved operational efficiency and reduced manual intervention.
- ❖ Owned defect resolution for high-priority issues, bringing down production defect count by over 90%.
- ❖ Coordinated cross-functionally (QA, BA, DevOps) to ensure on-time, high-quality releases.
- ❖ Enforced clean code, review standards, and sprint hygiene using Git and Jira.

SOFTWARE ENGINEER | LENTRA | PUNE | OCT 2020 – SEP 2023

Project - LOS Platform Development (Loan Origination System)

Client - Aditya Birla Finance Limited

- ❖ Developed Angular-based UI for borrower onboarding, agent workflows, and loan processing across multiple product types.
- ❖ Contributed to the migration from Angular 5 to 14, improving code quality and maintainability.
- ❖ Delivered 3+ major feature releases with API integration, clean code practices, and unit testing.
- ❖ Collaborated in Agile sprints using Jira and Git for delivery tracking and version control.

CERTIFICATIONS & RECOGNITIONS

- ❖ Extra Miller Award for Outstanding Performance in Client Delivery.
- ❖ Team of the Year Award for Outstanding Performance in Lentra.
- ❖ Spot Award for FTR Requirement Delivery
- ❖ Secured 7784 rank in CodeVita Season 8.
- ❖ Secured Gold badge by Hacker Rank in Python and CPP.
